## DOWIE PREACHED.

He Said He Was "Prophet, Priest and Ruler Over Men."

Chicago, June 3.—"I am Elijah, the prophet, who appeared first as Elijah himself, second as John the Baptist, and who now comes in me, the restorer of all things. Elijah was a prophet, John was a preacher, but I combine in myself the attributes of prophet, priest and ruler over men. Gaze on me then, I say it fearlessly. Make the most of it you wretches in ecclesiastical garb. I am he that is the living physical and spiritual embodiment of Elijah, and my coming to earth a third time has been prophesied by Malachi, by God himself, by his son, Jesus, by Peter and 3000 years ago by Moses. All who believe me to be in the very truth in all of this will stand up."

About 3000 people rose to their feet and greeted the declaration with cheers and handclapping.

John Alexander Dowie, true to his promises, made this statement from the platform of the auditorium Sunday night in the presence of 5000 people. It was the culmination of a frenzied speech in which he denounced everybody and everything not in Zion; cursed the pope and the Roman Catholic church, spat literally at Masonry, the newspapers and the bankers of Chicago and raged and tore up and down the stage like a madman.

"Understand well what I mean," he continued, "I will take no counsel in my method of government. I have come to proclaim theocracy, pure and simple, the government of God, by God and for God, and I will never rest till all other forms of government have been driven from the earth."

"You talk about your democracy. Bah. I tell you democracy has been tried in the balance and failed. The government of the people, by the people and for the people is twaddle, I stand loyal to the flag and countenance no revolution, but I claim here and now that the name of God must be placed foremost in the constitution of the United States and the supremacy of God over all things must be recognized.

"Listen to the first message of the prophet," he demanded. "You must pay your tithes and offerings into the storehouse of God. Accursed be ye if we would seek to rob His house of its fullness by not obeying this, His will sent through Elijah."

## ANOTHER SURPRISE.

Report as to the Decision of the Court Regarding the Philippines.

Chicago, June 3.—A special to the Record-Herald from Washington says:

The supreme court has another surprise in store for the country. Unless it changes its mind between now and October, the date of its next meeting, the court will decide the Philippine case in favor of the government. It will be another decision by a divided bench and upon most extraordinary grounds, to-wit:

1. That the United States has never declared its intention to retain the Philippine archipelago indefinitely and the only declaration of policy which had been made in the other direction, looking toward a mere temporary occupation, the United States being a sort of trustee for the Philippines as it was a trustee for Cuba.

2. That in any event the United States at the time the duty complained of (the 14 diamond rings) was collected, was not in the actual possession of the United States, but the United States was waging war for such possession and the control the United States had was limited to operations of the military authority.

## Richard McCormick Dead.

New York, June 3.—Richard O. McCormick died at his home in Jamaica, L. I., Sunday. He was born in this in 1832. In 1866 he was appointed territorial governor of Arizona. He served in this capacity until 1869. He was assistant secretary of the United States treasury in 1877-8, and was elected to congress in 1889, serving one term. He served as the United States representative at the Paris exposition in 1889. He married a daughter of the late Senator Thurman of Ohio, who survives him.

## Bartlett Found Guilty.

Monticello, Mo., June 3.—The jury in the Bartlett case found Bartlett guilty of manslaughter in the fourth degree, and sentenced him to two years in the penitentiary. Bartlett made a speech to the jury, in which he said that he took Edwards' life only because he felt that his own was in danger, and that a gang of knaves had conspired to

MR. J. C. BROGDON.

Death of Another Pioneer Citizen Leaves a Large Family.

At his home in Robertson county, a few miles north of Benchley, on Sunday morning at 10:30 o'clock, Mr. J. C. Brogdon came to the end of an active life of more than four score years, his spirit passing peacefully out from its earthly tenement. Mr. Brogdon was a native of Alabama and a pioneer citizen of this section of the state. For many years he resided in Brazos county in what is known as the Higgs neighborhood, near Bryan. He was an industrious farmer all his life and the father of a large family. He was a good man, a good neighbor and a good citizen. He was twice married and leaves a wife and ten children, as follows: George Brogdon, J. W. Brogdon, Luck Brogdon, J. V. R. L. and R. H. Brogdon, Mrs. R. J. Deens, Mrs. Dick Skains, Mrs. Warren Haygood and Mrs. H. H. Henry.

In the presence of relatives and a large number of friends and neighbors the remains of the venerable octogenarian was laid to rest yesterday afternoon at 3 o'clock at the Alexandria chapel cemetery. The members of the bereaved family, nearly all of whom reside in Brazos county, have the sympathy of the Eagle.

## EXTRA SESSION TALK

Some Believe One May Be Necessary as to the Philippines

THE COURT'S RULING  
While the Opinion Works Well as to Porto Rico, it Leaves Doubt as to the Philippines—Cabinet Will Soon Decide.

Washington, June 3.—Officials admit of congress, in view of an extra session the supreme court instinct with statement is made on the author who is a member of the cabinet. Attorney General Knox and Secretary of War Root have spent considerable time discussing the legal points involved. Mr. Knox is working hard on his opinion in order to have it ready for the cabinet meeting tomorrow. This meeting is expected to be of very great importance.

A call for an extra session would play havoc with the plans of senators and representatives. They have scattered to the far corners of the earth. Several, including Senator Bacon of Georgia, are about to start for the Philippines. Representative Cooper of Wisconsin, chairman of the insular committee of the house, and Representative Tawney of Minnesota, a member of that committee expect to go later on in the summer. Several, including Senator Beveridge, are in Europe. Mr. Henderson of Iowa, speaker of the last house is on his way to Europe and many more are arranging to go.

If congress should be called, the house of representatives might have difficulty in finding a place to meet. The hall is completely turned upside down. If the work should be pushed night and day it would require several weeks to get the hall into condition.

Representative Cannon of Illinois said in an interview:

"I don't believe there will be any session. I don't know the president's views on this subject. If the president decides an extra session is necessary, he will, of course, call one. The Philipines, in my judgment, are not on all fours with Porto Rico."

Rejoicing Over Waldersee's Departure.

Pekin, June 3.—The departure of Field Marshal Count von Waldersee from Pekin was marked by a great military display by the allied troops, the booming of artillery and the playing of bands. The entire diplomatic body escorted the field marshal to the depot.

Von Rauch, aide-de-camp, and a nephew of Count von Waldersee, will remain here to escort Prince Chun, the emperor's brother, to Berlin, where he will formally apologize in behalf of China for the murder of Baron von Ketteler.

International Troops in a Row.

Tien Tsin, June 3.—There was a very serious affray Sunday between international troops. Some British fusiliers, who are acting as police here, sought to prevent French soldiers from house-breaking when they were attacked with bayonets and bricks. The fusiliers in self defense fired in the air. This brought a number of Germans to the aid of the Frenchmen. They numbered together 200 men. Five fusiliers then fired killing a Frenchman and wounding three others. In subsequent fighting four fusiliers, five Germans and one Japanese were wounded. The arrival of a German officer and a strong guard ended the affray.

Georgia's Confederate Home Opened.

Atlanta, June 3.—The Confederate Soldiers' home, a state institution for indigent veterans, was opened here today. The anniversary of the birth of Jefferson Davis was observed as a public holiday in this city, and the crowds witnessed the opening exercises. Addresses were made by Governor Candler, Hon. Clark Howell, president of the state senate; Hon. John D. Little, speaker of the house of representatives, and Mayor Livingston Mims of Atlanta. It was through the work of Hon. Henry W. Grady, far back in 1888, that the Soldiers' Home became established, but movement was attended by many trials and vexations delays. The Home is about five miles from the center of the city and beautifully located. Sixty veterans have been admitted.

OUR TRADE WITH SPAIN.

Exports to That Country During This Year Will Exceed \$16,000,000.

Washington, June 3.—The commercial relations between Spain and the United States seems to be fully restored, and it is not improbable that American exports to that country during the fiscal year of 1901 will be greater, with possibly single exception, than any preceding year. Exports from the United States to Spain for the nine months ended with March, 1901, valued \$11,879,849 against \$10,081,920 the corresponding month of last year, and \$7,091,043 the corresponding period of the fiscal year of 1899. The figures for the year up to this time indicate the total exports from the United States to Spain for the fiscal year of 1901 will be about \$16,000,000, while in 1891 the exports to Spain was \$14,619,335; in 1880 \$14,457,884 and 1883 \$16,931,287.

Raw cotton was the largest single item of exports to Spain. Exports of cotton from this country to Spain increased from 87,688,782 pounds in 1890 to 123,230,186 pounds in 1900. This particular feature of American export trade with Spain was not materially affected by war, exports of cotton in the fiscal year of 1898 and 1899 having exceeded the quantity of other years in the decade.

Butchers Advance Prices.

New York, June 3.—Butchers of this city have increased the price of meats. Wholesalers increased the price of carcasses to 8½ and 9 cents a pound, the increase of about 1 cent over the ruling prices. Retail prices will be advanced accordingly.

New York, June 3.—Ardubucks Bros. have advanced all grades of refined sugar 10 points. This is still 5 points under the price of the American Sugar Refining company.

## NO FURTHER INFORMATION

War Office Giving Out Nothing as to the Battle at Vlafontein.

London, June 3.—The war office is making no effort to allay public uneasiness, occasioned by the scantiness of news from South Africa. Nothing has yet come through to illuminate the Vlafontein affair. The only dispatch on the subject since the first official announcement being a three line message from General Kitchener giving three additional names of officers killed.

Details just received of the relief of Vlafontein by General Methuen show the town has been practically besieged for several months and that the food supply was short.

A dispatch from Pretoria announces that the constabulary captured Abram Malan, son-in-law of the late General Joubert. Malan was an energetic progressive politician before the war and since it began has been very active against the British and filled several important commands, including that of Pietersburg until British occupied the place.

The uncertainty with regard to recent operations in South Africa is causing a good deal of uneasiness in this country. It is believed the responsibility for the concealment of news does not lie with General Kitchener. But owing to recent warning from him as giving news to the public it is believed home officials suppressed almost all the news he has forwarded.

The daily dispatch as to casualties is anxiously studied, but these dispatches do not fully indicate the actual number of deaths of British soldiers caused by war. Good many men, invalided home, have died in England without being included in the list. At the present moment all military hospitals in the United Kingdom are crowded with patients, the greater number suffering from enteric fever contracted in South Africa.

WAITING FOR INFORMATION  
Cuban Constitutional Convention Discussing the Situation.

Havana, June 3.—The Cuban constitutional convention held an informal meeting this afternoon to discuss the situation. President Capote and Senor Samayo saw Governor General Wood before the meeting but he was unable to give them any definite information, saying he expected a communication from Washington which will be forwarded to the convention.

Civil Governor Quilez said before voting on the majority report that he informed the convention he did not believe the United States would be satisfied with the form which the amendment adopted, including explanations. The committee, however, positively informed him that the United States would be satisfied. It is expected the committee will disclose its source of information.

## PHILIPPINE NEWS.

Last of the Volunteers Ready to Depart for the United States.

Manila, June 3.—Nine companies of the Ninth regiment have arrived here on the transport Indiana from China. The last of the volunteers, the Forty-third regiment, sail on the Kilpatrick tomorrow. The sick regulars, several hundred of whom have long been awaiting transportation, will be embarked on the next transport with the remaining discharged regulars and civilians.

An act has been passed providing for the erection of forts.

The consideration of the code of procedure have been deferred. The number of supreme court judges have been increased from five to seven.

The trial of Harold M. Pitt, the manager for Evans & Co., government contractors, charged with improperly purchasing government stores, has begun.

## GRADUALLY IMPROVING.

Secretary Hunt Says Porto Rico Would Soon Be Self Sustaining.

New York, June 3.—Among the passengers who arrived here on the steamer Bonie from San Juan was W. H. Hunt, secretary of Porto Rico. Mr. Hunt will proceed to Washington. Mr. Hunt said conflicting reports as to the decision in the Porto Rican cases made it doubtful when he left the island as to imports. Under the decisions, however, it was believed it would not be many months before there would be free trade between Porto Rico and the United States. He said when the new revenue law went into operation after July 1, the government of the island with the duties collected on foreign importations and with the exercise of laws would have enough revenue to maintain itself. He said conditions in Porto Rico were improving and hopeful. The people, he said, had adapted themselves to the changed government and were looking forward to a gradual improvement.

## BIG OCEAN LINER TRUST.

**Number and Value of Ships In Morgan's Latest Deal.**

Shipping men in New York say the purchase of the Leyland line is the most important deal in the history of American commerce and predict a speedy absorbing of other freight carrying steamship lines by the Morgans. It has been predicted for months that Mr. Morgan, backed by the combined railroad interests, would speedily bring about a consolidation of steamship lines in a powerful trust for the control of transatlantic traffic.

Although Robert Bacon, spokesman for the firm of J. Pierpont Morgan & Co. in the absence of its senior member, refused the other day to confirm the report of the purchase of the Leyland line, there is little or no doubt of its accuracy.

Sixty-three ships, worth a total value of close to \$30,000,000, comprise the Leyland line, says the New York World.

Most of them are in the transatlantic service between Boston and Liverpool, Boston and London, Portland, Me., and Antwerp, New Orleans and London, New Orleans and Liverpool and Quebec and London. The company also runs steamers from Liverpool to Portugal, Italy, Sicily, Malta, Constantinople and the Black sea. It also controls the Indian and Pacific Steamship company and owns a large interest in the Wilson and Furness-Leyland lines, all of which swells the value of its properties to a grand total of \$75,000,000.

The Atlantic Transport company has a fleet of 12 ships, with two more building, valued, all told, at \$12,000,000. This company operates a transatlantic line between London and New York, Philadelphia and Baltimore and works in co-operation with the Pennsylvania railroad. Together the two lines marked for consolidation by the Morgans represent a gigantic value of nearly \$100,000,000.

Recently the Leyland line entered into a traffic arrangement with the Illinois Central railroad, which, according

to official statements made at the time, did not involve consolidation of financial interests. By the arrangement the Leyland line dispatches four ships each week from New Orleans to European ports in connection with the Illinois Central.

## CRITICISM OF CHICAGO.

**What Novelist Fuller Thinks of the Windy City.**

Henry B. Fuller, the novelist, who has been vigorously cursed by all Chicago for his truthful criticisms of that city, made reply to Chicago the other night, "in the New York World."

"Two million," he writes, "live in Chicago people," they make a city. The country fancy that is the dominant element in Chicago, is the most of its social and material aspect, is but the country town grown big. Abundant evidences of our origin still cling to us. The freedom with which we make our gutters do service as livery stables relegates us at once to the thousands of 'main streets' all over the west.

"Seven-eighths of our people are totally without the urban tradition. Of the native half the great bulk drawn from the farms and small towns of the Mississippi valley have never seen a city in their lives—there are none west of the Alleghenies—and do not know what a city is or ought to be nor what restraints and concessions are necessary for successful living under civic conditions. The foreign half, very largely from the rural districts of the continent, are nearly as guiltless of metropolitan knowledge as the native.

"When we were paying our dimes some years ago to see Dog Faced Jojo, he didn't ask us what we thought of him. He didn't pose as a host. He was frankly a freak. The question is, Can Chicago longer afford to rank as the Jojo among the world's cities? I think not."

### WHY HE RESIGNED.

**How a Cooking School Forced Preacher From Pulpit.**

The Rev. Thomas H. Agnew of the Methodist church of Humboldt, near Mattoon, Ills., has been compelled to resign because he denounced from the pulpit the Humboldt Cooking school as "a school for high kicking," says the New York World. The school includes in its membership the best women of the village.

"She is the most envied cook," said he, "who can kick the highest."

Half the members refused to attend the church, but this did not stop the vocal crusade of the Rev. Mr. Agnew. Finally all the members but five or six withdrew and refused to pay the minister's salary. The trustees then asked for his resignation.

**AMBITION WOMAN WHO WAS AN EMPRESS THREE MONTHS.**

**Now Lying Seriously Ill at Her Castle—Eldest Child of Queen Victoria. She Was Proud, but Brilliant and Charitable.**

Alexandra, queen of England, has just performed one of the saddest duties that will be imposed on her during her husband's reign. The consort of the English sovereign has just paid visit, in all probability the last, to King Edward's sister, the Dowager Empress Frederick of Germany, who is ill at her chateau, Friedrichshof, situated near Cronberg, a little town in West Germany. The Empress Frederick is surely numbered, for ease. With an incurable disease the career of passing away will soon end much of life, who man who has had much and who has suffered.

The Dowager Empress Frederick, Germany's oldest child of the late Queen Victoria, and the prince consort. She was born on Nov. 21, 1840, at Buckingham palace and christened Victoria Adelaide Mary Louisa. She was known as the princess royal. All accounts agree in ascribing to the princess during her childhood quickness, brightness and intelligence, mingled with frankness and pride of position. She was a bright and vigorous child, more sprightly than her brothers and sisters. Her parents idolized the little princess, and no pains were spared to make her education and training thorough.

She especially showed early a decided taste for drawing, like Queen Victoria, and throughout her life she has spent much time with palette and brush. A foreign artist said that if Victoria Adelaide had not been a princess and therefore freed from financial worries she could easily have earned an excellent living by her art. She also displayed considerable talent as an actress.

In 1857, when the princess royal was only 17 years of age, she was betrothed to Frederick William, heir to the throne of Prussia. They were married on Jan. 25, 1858, and their children have been eight in number, four of them sons. William II is the oldest son of the dowager empress.

Princess Victoria's marriage was not, at any rate in its early years, a happy

QUESTION ANSWERED.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for Indigestion or Bilioousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Prize Almanac. For sale by Wilson-Jenkins Drug Co.
